VIDEO PROMPT

18 SEC / 9:16

Create an 18-second vertical 9:16 cinematic, photorealistic video. Use the uploaded references: @image1 for the man and his outfit, @image2 for the black sunglasses, @image3 for the orange-edged phone, and @image4 for the coffee cup. Keep their appearance consistent.

In a warm sandstone courtyard in natural daylight, the man walks with the phone at his left ear, coffee in his right hand, and sunglasses on his face. A passing pedestrian bumps into him. He loses his balance and falls backward, releasing the glasses, phone and cup.

Shift into extreme slow motion. The objects seem almost frozen in mid-air while the camera moves between close-ups: first the glasses, then the phone, then the coffee. Hold on the cup so its black sleeve, white Arabic logo, clear lid and black straw are easy to see. Keep the falling man softly visible behind the objects.

Return to normal speed as he lands safely. The cup settles upright nearby. He pauses, picks it up and calmly takes a sip through the straw.

Use smooth camera movement, realistic lighting and natural ambient sound. No music, dialogue or text overlays. No duplicate objects or changing faces. Preserve the cup logo.
